Re: Funding Opportunities for Disaster Resiliency

Colleagues:

Here are two opportunities to support fire depts. and local governments.

- The first one supports the conversion of vehicles in to wildland fire engines. It is a pilot program through the Bipartisan Infrastructure Law. The deadline is March 21, 2024. Eligible applicants include rural local governments (population of 25,000 or less). For more information, visit [DOI's website](#). This submission must go through Grants.gov.
- The second one is FEMA Assistance to Firefighters which is due March 2, 2024. This program helps firefighters and other first responders obtain equipment, protective gear, emergency vehicles, training, and other resources for protecting against fire and related hazards. Eligible applicants include fire departments, state fire training academies, and emergency medical service organizations. For more information, visit [FEMA's website](#).

I apologize for the short window on these applications! Thanks to Senator Bennet's office for the alert on these! Let us know how we may assist.

Colleen
