Date: 5/14/24

Re: Funding Opportunity for WaterSMART Planning & Project Design **Deadline Extended!**

Colleagues:

Due to a planned maintenance outage on [www.grants.gov](http://www.grants.gov), the deadline for the WaterSMART Planning and Project Design Grant has been extended to May 23, 2024, at 4:00 p.m. Mountain Daylight Savings Time. Please contact me if you have any questions. Also, **please keep us updated if you are pursuing any federal monies.**

**Planning and Design:**

Through Planning and Project Design Grants, Reclamation provides funding for collaborative planning and design projects to support water management improvements. This includes funding for: (1) Water Strategy Grants to conduct planning activities to improve water supplies (e.g., water supplies to disadvantaged communities that do not have reliable access to water, water marketing, water conservation, drought resilience, and ecological resilience); (2) Project Design Grants to conduct project-specific design for projects to improve water management; and (3) comprehensive Drought Contingency Plans.
